

# RECOMMENDATIONS

Flea Preventive: Revolution or Advantage Multi for Cats-Both have heartworm, other worm, and ear mite preventive. (Neither has tick medication) ONLY available at your vet.

**NEVER** use an “off-brand”

Litter: Dr. Elsey’s Ultra (Blue) Low dust, good clumps and NO FRAGRANCE...available at PetSmart and other pet stores or Chewy’s Frisco Brand...available at Chewy.com (keep 2½-3” in the box at all times)

Comb-Furminator short hair or long hair...Ebay  
(Get kittens used to brushing by starting with a toothbrush)

Food-Currently being fed Purina One Cat or Kitten Food

If you decide to change foods you should do a gradual change to the new food....adding less of the “old” every day and more of the new food-prevents an “upset tummy”-takes about 1 week....

Dry Purina Pro Plan Focus or Purina One are good alternatives-Kitten or Adult-as appropriate

Canned-Friskies...Cats and kittens

Canned Kitten-Authority (PetSmart) 6oz. cans

Bowls-NO Plastic-best is pottery type WIDE bowls  
(soup or vegetable bowls)

Toys-ping pong balls (only if no dogs in the house), whiffle balls, Clothesline (2’ long with a knot at each end)

Moving to a new home and new family is occasionally a “stressor” for pets....Sometimes this can bring on signs of a cold. Please take your new pet to the vet if these signs appear, the sooner you catch this, the better.
